PREFACE

An updated and credible national health database is essential for effective planning, decision making, monitoring and evaluation of various health programmes & health sector developmental activities under NRHM. To achieve this objective, the Central Bureau of Health Intelligence (CBHI), in annual series has compiled the "National Health Profile of India (NHP) 2007". The NHP covers all the major aspects of demography, health including morbidity & mortality trend, health care delivery, infrastructure, education and finance etc. The information on Health Legislation in India, as compiled by WHO (India) have also been referred.

For this current issue of "NHP 2007", efforts have been made to make it more useful with information on (i) Key Findings of the latest National Family Health Survey (2005-06), (ii) Millennium Development Goals (MDG), (iii) National Recommendations on Improving and Strengthening the Health Information System(HIS), (iv) Major Recommendations on Improving and Strengthening the Implementation of International Classification of Diseases (ICD-10) and Medical Record Department, (v) Case study Report & Recommendations on Managing Human Resources in Health in India, (vi) A reference on Survey on Mortality, Health Care and Condition of the Aged, National Sample Survey (60th round), M/o Statistics & Programme Implementation (vii) Major Disease Outbreaks investigated by NICD, Delhi (viii) Vaccine production, demand and supply 2006-07, (ix) WHO Collaborating Centres on Family of International Classification (FIC), (x) Reference on ICMR-Directory of Health Research Institution in India (2007) and (xi) Important Health days.

We express our gratitude to various source agencies viz. Directorates of Health & Family Welfare services of all the 35 States/UTs, Registrar General & Census Commissioner of India, Various National Health Programmes, Indian Council of Medical Research, Medical/Nursing/Para-Medical Councils of India, Planning Commission, IRDA, Central Electricity Authority, different Union Ministries like Statistics & Programme Implementation, Education, Labour, etc. and also International Agencies such as WHO & IMF for their valuable support in providing the requisite data for this NHP 2007. We are grateful to NIC/MOHFW, New Delhi for uploading this NHP 2007 in CBHI website: www.cbhidghs.nic.in for ready viewing.

The continuous guidance provided by the DGHS, all concerned officers & staff of Dte. GHS and Ministry of Health & FW, Govt. of India, was of immense help to prepare this national document.

The feedback and valuable suggestions from various users of this document have been very encouraging and we solicit such continued support in future through post/telephone/ E-mail: dircbhi@nic.in

15/3/8
(DR. ASHOK KUMAR)

Efficient Health Intelligence is key to Healthy & Prosperous India
