Mr. Naresh Dayal, Union Secretary Health & FW (extreme right) releasing HS-PROD Report 23rd March 2007. Also present are Dr. R.K. Srivastava, DGHS (extreme left) & Dr Ashok Kumar, Dy. DG & Director CBHI (Centre)

Though States/UTs of India have reforms in the health sector, a lot of this goes unnoticed and hence not documented. Thus, MOHFW/GOI under its Sector Investment Program (SIP) funded by the European Commission, entrusted CBHI to develop and maintain HS-PROD. It is a web-enabled database that documents and further creates a platform for sharing of information on good practices, innovations in health services management while also highlighting their failures that are very important for the success of NRHM. These initiatives have been taken from a varied range of fields and stakeholders like the state/ UT governments, development partners, non-government organizations and categorized under 16 subject areas. Kindly visit this website for appropriate use & replication of reforms. CBHI solicits information on such reforms from State/UT governments, health program managers, researchers, teachers and institutions in order to regularly update this national database. Sense of ownership and pride is to be taken in an effort like HS-PROD by all public health professionals.
