• For calculation of per capita net availability, the figures of net imports for 1994 are based on imports and exports on govt. of India account only. The net import from 1995 onwards is the total export and imports (both govt. as well as private accounts)

2.7 Health Legislation in India

Compiled by WHO/India Country Office.

The entire detail of the same will be available on the **website: www.whoindia.org**

A compilation of Health Legislation in India grew out of the advocacy work related to regulation, accountability and monitoring of health care services. It made to realize the lack of awareness among various stakeholders regarding existing health legislation. Hence, one of our long sought aims has been to put together such a compilation and ensure its wider dissemination.

Health is a State subject and, in many areas, the state government legislations are applicable. Given the enormity of the task of compiling all health related laws, this compilation is restricted to laws applicable at the central level and those related to health and health care issues. The acts and rules in this compilation were collected over a period of time from different sources, too many to be mentioned. The categorization of legislations has been adopted from the WHO classification. Health related international covenants and guidelines have also been included in the following major areas "Act & Rules" have been collected :-
